

## **CoronaVirus Update – Essential Services**

At Leonard Valve Company, we are watching the COVID-19 developments continuously. We follow guidance from the Centers for Disease Control advisements. This week we have formalized social distancing in our workplace.

The safety of our workforce is paramount. Leonard Valve Company also has a responsibility to the Healthcare System. We provide Essential Water Mixing Valves and parts for the infrastructure that maintains Hospitals; Nursing Homes; and other Critical Care facilities.

Leonard Valve Company is considered an Essential Business as are plumbers and mechanical contractors. Should the State of Rhode Island or the US Government issue a work from home directive, Leonard Valve Company should be exempt from that directive.

It is our intention to remain open to serve our customers as long as we can safely protect our employees. We will continue to monitor the situation and look for every way to limit exposure for our employees.

Leonard Valve Company
